

Seeking Volunteer “Mechanics” to keep wheelchairs rolling

Global Links is seeking volunteers to assist in repairing and prepping wheelchairs for donation to resource-poor communities, both at home and overseas. The wheelchairs are donated by the community and healthcare facilities and are gently used. Basic knowledge of bicycle or vehicle mechanics is a plus.

Volunteers will be working in a warehouse environment, with equipment and tools provided. Supervision is minimal. Please see our volunteer page at globallinks.org and select the individual volunteer application to sign up.

Global Links is a medical relief and development organization dedicated to promoting environmental stewardship and improving health in resource-poor communities.
